

So...

WHY ARE WE HERE?

What are we here for? What is this meeting for?

To gather information about what might change in your community if voters approve creation of a new City of Fairwood, or pursue annexation to the City of Renton, or remain unincorporated.

To provide feedback to the proponents of a new City of Fairwood, proponents of annexation to Renton, the City of Renton, and the County about your concerns about the issues related to annexation and incorporation.

To discuss these issues with your neighbors.

There are **no presentations scheduled** for this meeting. Attending tonight and available for your questions are representatives from the proponents of a new City of Fairwood, the City of Renton, King County, and a consulting firm that has conducted the financial feasibility study related to the proposed new City of Fairwood, and a fiscal analysis of annexation Renton of the Fairwood / Cascade / Spring Glen area.

All you need to do is visit the tables and research and talk about issues of interest to you.

Are we voting on something tonight?

No. These meetings are an opportunity to get information out to residents who are in Renton's "Fairwood Potential Annexation Area" (PAA) – which includes Fairwood, Cascade and Spring Glen -- so that residents can make an informed choice about whether and how the area might change its governance, and learn more about the proposed City of Fairwood and the option of annexing to Renton.

Who called this meeting?

The meeting is being hosted by King County. The meeting format and materials have been developed by a team of people representing a variety of views--including residents of the area supporting incorporation, residents opposing incorporation and supporting annexation, County representatives, and representatives from the City of Renton.

There are meeting evaluation and feedback forms for you to fill out if you like: they are located near the entry doors.

Thank you for coming!
